The Immune
System in Action
The immune
response works in
two ways. In
humoral immunity,
white blood cells,
called B
lymphocytes (B

Download Free Chapter 35

cells), make antibodies that attack pathogens in the blood. In cell-mediated immunity

white blood cells, called T lymphocytes (T cells), find and destroy abnormal or infected cells.

After a pathogen is destroyed, memory B cells and memory

Download Free Chapter 35

T cells stay in the
body.
