Daewoo Matiz Engine management Light problem? Like many of our customers think, she thought she was going to need a new engine and was probably on “tender hooks” waiting for us to call her back with our assessment of the damage and the price. We checked most likely cause, the spark plugs. Indeed, the plugs were in a bad condition, and we suspected that this was the cause.

2000 Daewoo Matiz Engine management light. Jenny B Driver 1 points. Problem added: Sep 14, 2010 (10 years ago) My engine management light stays on for a couple of weeks then goes off for a couple of days, then comes back on again. Took it to garage who used diagnostic computer and they switched the fault off. The problem still remains.

Engine management light - 2000 Daewoo Matiz - Problems and ...

Hi, The engine management light came on last week. Called the AA who said my car (2001) needed HT leads, but he dried it all out (I think) but the light stayed on. Next day had diagnostic check and the garage switched off light.

Daewoo matiz Hi, The engine management light came on last...

My daewoo matiz 3 cylinder, 2001 800cc engine management light comes on sometimes for a couple days only. Prior to light coming on, engine has loss of power, changing down gears usually helps it to pick up again although it has never actually stopped.

My daewoo matiz 3 cylinder, 2001 800cc engine management ...

Daewoo Matiz - Check engine light puzzle. After putting up with the dreaded 'check engine' light (MIL) for a while, I paid £24 to have the code read by a local garage. They found the code P0480, which is apparently due to a Low Speed Cooling Fan Relay Circuit Fault. Having checked that the high-speed fan circuit works by switching on the air conditioning, the garage cleared the fault code and ...

Acces PDF Daewoo Matiz Engine Management Light

It is nearly 1.5 years since it last came on - I think there is a problem with the fuel outlet from the tank being too high, so if fuel levels drop below half, when you turn a left corner the fuel slops away from the outlet, air gets sucked in the fuel pipes, and engine management light illuminates. So, to preven engine light coming on, treat the half way mark as empty.
