Honda ' s OHC design offers additional advantages. By combining unique rocker arms and a single camshaft, the cam pulley is located on the side of the cylinder head. This allows overall engine height to be reduced in comparison to a conventional OHC engine.

Honda Engines | Small Engine OHC design

OverHead Camshaft engines (OHC) Valves are located in the roof of the combustion chamber to offer the same combustion related advantages as OHV engines. The OverHead Camshaft layout builds on these advantages by reducing the number of valve train components and allowing them to be lighter and stronger, thereby making the engine more compact and ...

This Honda Vertical OHC GCV Series engine is incredibly quiet and uses the world's first internal timing belt. This compact, lightweight, air-cooled 4-stroke single cylinder engine is an ideal choice for home and light industrial use. Designed for use with hover mowers. Other common applications include trimmers, tillers and chipper/vacs.

Honda Vertical OHC Engine — 160cc, GCV Series, 7/8in. x 2 ...

Flathead engines, also known as L-head engines or L-block engines, are the most simplistic type of small engine that you ' ll find in power equipment. They are often smaller than OHC or OHV engines and less sensitive to low-octane fuel. While they get the job done, they are generally considered to be of a lesser quality than OHC or OHV designs.

OHC vs. OHV Engines - DR's Country Life Blog

This Predator 212cc gasoline engine has gas-saving overhead valves for cooler, cleaner performance and longer life. The horizontal shaft is ball-bearing mounted, making this gas engine an ideal replacement for most standard engine configurations.

6.5 HP (212cc) OHV Horizontal Shaft Gas Engine EPA

The enlarged 86.7 cc (5.29 cu in) OHV engine of the 1963 C200 was used on the 1965 CM90 step-through. New in 1965 was a 63 cc (3.8 cu in) engine with a chain-driven overhead camshaft (OHC). This was used in two new models: the C65, a step-through with 4.1 kW (5.5 bhp), and the S65, with a frame like the C110/C200 and 4.6 kW (6.2 bhp) @ 10,000 rpm.
