Volvo fault codes list

I have 96 Volvo WIA with d12A engine. And fault for engine position sensor. Is 3 of sensors on engine. One on flywheel, two on front right (passenger) side (replaced all). I check harness, all sensors have 12V (analog). Engine start, truck run (i drive over 2200 miles with this fault). I cant connect ptt to ecm even when i find original serial port adapter and trial. JPro show faults with inline7 ptt 1.12 not connected with inline, nexiq and old school Volvo adapter. I open ecm cover, nothing bad, pcb ...
